

# Fructose Breath Test

## **Patient Instructions:**

- 1) Eat a low-fiber diet the day before testing.
- 2) You should fast for 12 hours, with no food and water except for the Coke to drink before testing.
- 3) You should not smoke, sleep, or exercise vigorously for at least ½ hour before, or at any time during the testing.
- 4) Please do not brush your teeth, use mouthwash, chew gum, or eat mints before the test.
- 5) Hold off on taking any medications before the testing. You will be able to take your medications after the test is over.
- 6) If you have been on any recent antibiotic therapy, please make the office aware of such conditions, as they can affect the test.

**Three (3) hours prior to coming into the office, drink a can (12oz) of Coca Cola (must be REGULAR Coke, not diet, not caffeine free, and NO Pepsi/generic brand).**

*\*\*\*This is a time sensitive test, please try to show up a few minutes earlier than the 3 hour mark for the test\*\*\**

*Any questions feel free to give us a call at: 978-429-2010.*
